Your kindergarten has partnered with Play Move Improve to give families access to the Developmental Hub. Use it when you want a quick idea, want to understand what your child may be showing you, or want practical movement and play activities to try at home.

Who is Robyn?

Robyn Papworth is an Accredited Exercise Physiologist and Developmental Educator and the founder of Play Move Improve. Her work helps adults understand children through movement, play and everyday experiences.

Why movement matters

Movement helps build foundations for balance, coordination, body awareness, core strength, visual tracking, fine motor skills, attention and confidence. The Hub turns these ideas into small, realistic activities for family life.

What your family receives

- 12 months of Developmental Hub access from the day of payment
- Calm, practical support written in parent-friendly language
- Videos, tools and ideas families can use in short moments at home
- A private kindergarten access code to connect your family to the Hub

Please keep your kindergarten access code within your service community.

DEVELOPMENTAL HUB FOR FAMILIES

When everyday things keep becoming harder than they should be.

Getting dressed. Leaving the house. Sitting to read. Packing a school bag. Playing together. Coping after school. Doing one simple job without it becoming a battle. Sometimes you know your child needs support, but you are not quite sure what you are looking at or what to actually do next.
